

Questions & Answers

Do I have to use the City container?

Yes! Only trash placed in City issued refuse containers will be collected.

Are different-sized containers available?

Yes. The standard 96-gallon automated refuse container has the capacity of three regular trash cans — ample space for the average household. Smaller 64- or 32-gallon containers are also available by phoning a customer service representative at (858) 694-7000.

Do I take the containers with me if I move?

No! Do not take automated containers with you when moving. They are the property of the City of San Diego. Containers are numerically registered to the address which they are originally delivered, and it is recommended that residents record container numbers. Customers are responsible for container storage and cleanliness.

What can I do with household hazardous waste?

It is dangerous — and illegal — to toss hazardous or flammable materials in the trash or down the drain. Do not place paints, pesticides, pool chemicals, or motor oil in automated containers. Call (858) 694-7000 to learn how to safely dispose of hazardous wastes.

Record Container I.D. #(s) Here:

- ✓ To obtain an additional container, send a check or money order for \$50 for each container. Please include your name, address, phone number and size of container desired. Make check or money order payable to City Treasurer, and mail to:

Environmental Services Department Customer Service
9601 Ridgehaven Court, Suite 120
San Diego, CA 92123

- ✓ Please call the Environmental Services Department's Customer Service at (858) 694-7000 for the following information:
 - Check availability of containers and desired sizes, arrange pickup or exchange of containers for a different size.
 - Report stolen containers.
 - Report defects and/or repairs needed for your container. Please include your container number when providing this information.
- ✓ For further information and service requests, on-line services are available. Log on to www.sandiego.gov/environmental-services/.

Holiday Schedule

Trash is not collected on following holidays:

New Year's Day	January 1
Dr. King's Birthday	3rd Monday in January
President's Day	3rd Monday in February
Cesar Chavez Day	March 31
Memorial Day	last Monday in May
Independence Day	July 4
Labor Day	1st Monday in September
Veteran's Day	November 11
Thanksgiving Day	4th Thursday in November
Christmas Day	December 25

Starting the day of the holiday, trash is collected one day later for the remainder of that week. When holidays fall on Sundays, there is no Monday pickup and trash collection is delayed one day for the rest of that week.

Automated Refuse Collection

What is it?

Automated Refuse Collection is a service of the City of San Diego that facilitates safer and more cost-effective collection of household trash.

How does it work?

Households participating in the City of San Diego's mandatory refuse collection program are provided one automated refuse container at no cost. Residents can select either a 32-, 64-, or 96-gallon size. Additional containers are available for a one-time user fee. (See back for details.) These City containers must be used for your weekly trash pickup. Automated refuse collection trucks are equipped with specially-designed arms that grasp, lift and empty the City-issued refuse containers. Trash outside of the automated container will not be collected.

Participation in Automated Refuse Collection is mandatory – and as easy as 1 - 2 - 3!

1. Fill your automated container with only household trash. No paint, chemicals, motor oil or other household hazardous waste, construction materials, dirt, rocks, auto parts, major appliances, hot ashes, or coals. Please bag your trash before placing it in the container to reduce litter, keep containers clean and prevent spilling. To ensure collection, containers filled with trash may not exceed the 300 pound weight limit.

2. Close lid, grasp container handles firmly with both hands and wheel the container to the curb or point of collection on your collection day. **Your trash may not be collected if placed out after 7:00 a.m. on your collection day.**

3. Set your automated container at the curbside or point of collection, **wheels and the handle facing your home.** Make sure your container is **at least three feet** from any other containers, parked cars, lamp posts, fences, trees, mailbox posts, away from overhead wires or any other structures so that the automated collection truck can pick up your container. After collection, remove your container from the street or alley by 6 p.m.

Remember:

- ✓ If you receive City curbside recycling, please place your recycling container at your point of collection by 7:00 a.m. on your scheduled collection day. Recycling is collected biweekly.
- ✓ Please remove your automated collection containers from your point of collection by 6:00 p.m. on your scheduled collection day.
- ✓ If you move, do not take the automated container with you. It belongs to the City and must remain at the original address.
- ✓ Do not put hot coals, ashes, or lit cigarettes in automated containers.
- ✓ Do not overfill the container. The automated system works best if the lid is completely closed. This helps to prevent trash spilling in your neighborhood.
- ✓ For safety reasons: place both hands on the handles when moving containers to and from points of collection and storage; stay clear of automated trucks while in operation; and do not permit children to play in or with automated containers.
- ✓ We suggest you save your old standard trash cans for possible greenery recycling programs.
- ✓ Please recycle! Call the Environmental Services Department's Recycling Hotline at (858) 694-7000 for a Recycling Guide that lists recycling centers and materials accepted.
- ✓ Be a good neighbor. When not in use, please store your automated container "out of sight" from the street. Your neighborhood will look nicer. You will reduce scavenging, contamination of recyclables and decrease the risk of your container being stolen.

If you have any additional questions, please call a customer service representative.
